ORDER

In the reference read above, the Commissioner & Special Officer, Greater Hyderabad Municipal Corporation, Hyderabad has stated that the road connecting from Begumpet to Secunderabad with heavy traffic is moving and to have increase riding comfort, several representations given by VIPs on this above road, Joint inspection was held on 09-12-2015 with the officers of Police and officers of GHMC and other field engineers of GHMC for the road development works from St. Ann’s School to Jabbar Building, Begumpet. The Additional DCP, Traffic in his letter addressed to the Commissioner & Special Officer, GHMC, Hyderabad has expressed the following views on the above roads for strengthening and re-carpeting to total road from St. Ann’s School to Jabbar Building, Begumpet to avoid inconvenience to the public and also to enhance the safety of the road users and VIP vehicle movements.

- The road stretch from Begumpet to St. Ann’s School is one of the Primary VIP roads in the Hyderabad City as most of the VIP’s will be frequently using this road. This road carries heavy traffic as it connects various important destinations.
- Due to road cuttings and restorations by various line departments viz., HMWSSB, TSPDCL and HMRL in particular, the said road has lost its surface uniformity giving rise to bumps and undulations causing great discomfort to the road users.
- During the last 2 years, BT patch repairs are attended only to the extent of damaged portions, locally, by HMRL and other departments due to which the road has lost riding quality causing great discomfort and endangering the safety of the road users due to severe undulations.
- Several complaints are also published in the daily news papers about the bad condition of the road.
- Due to the existing road condition the traffic on this road is moving slow leading to traffic congestion problems and the VIP’s vehicles are also facing discomfort.

2. The Commissioner & Special Officer, GHMC, Hyderabad also reported that keeping in view the importance of work, he has verified the ground realities and observed the stretch of the road is taken up by the R&B for the re-carpeting in the year 2013 during the COP and subsequently BT patches were taken in different places in the year 2014 during the metro polis no reach is under DLP. From last almost 1 ½ year no re-carpeting works are taken up either by R&B or by GHMC after its taken over. Hence, it is considerable for taking the entire re-carpeting with profile correction in larger interest of road users and also for the VIP movements. The Commissioner & Special Officer, Greater Hyderabad Municipal Corporation, Hyderabad has prepared an estimate of Rs.1888.00 lakhs for the above work.
